

# HALLOWEEN SAFETY TIPS

Here are three tips to help this Halloween be a safe and happy experience for any entire family!

01

## COSTUMES

Wear costumes that fit properly, (especially the footwear) and make sure any masks don't obscure vision. Find a way to incorporate some reflective strips or glowsticks, or any other sort of item that shines brightly in the dark and is visible to drivers.

02

## CANDY

Make sure all candy is professionally wrapped and not open or in homemade packaging.

03

## TRICK OR TREATING

Plan your walking route ahead of time, stay on sidewalks, and only cross the street at established intersections. If you're in a large group, be careful to make sure nobody falls behind and gets missed.

Have a safe  
and Happy  
Halloween!
